

## ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

---

**Date/Time:** 8/2/05 – 1500

**Site Contact(s):** Duane Parsons (RISS) – (DAP-036)  
**Phone:** (303) 966-6458

**Regulatory Contact:** David Kruchek, CDPHE  
**Phone:** (303) 692-3328

**Agency:** CDPHE

---

**Purpose of Contact:** Building 231 Disposition

---

### Meeting Attendance

D. Kruchek, CDPHE                      D. Parsons, K-H

### Discussion

Building 231 housed transfer pumps for pumping process waste liquids to and from the 231 Tanks. The building is mainly underground and the size of a typical valve vault. A metal shed makes up the upper portion of the building. Building 231 and its equipment is considered ancillary equipment for the 231 Tanks. In-process surveys show the inside building surfaces to be contaminated with fixed transuranic contamination up to a few hundred dpm/100cm<sup>2</sup>. Therefore, Building 231 will be removed and managed as LLW and/or LLMW as appropriate using the Waste Release Evaluation (WRE) process and in accordance with the Building 231 RCRA Closure Description Document (CDD).

Once the structure is removed, additional soil evaluation and characterization (if necessary) shall be performed of the soils adjacent to and underneath the building structure. Since Building 231 will be dispositioned using the WRE and CDD process, neither a Reconnaissance Level Characterization nor a Pre-Demolition Survey will be performed. This approach was discussed and concurred with by CDPHE, David Kruchek on August 2, 2005.

ADMIN RECORD

**Required Distribution:**

J. Legare, DOE

C. Deck, K-H

D. Shelton, K-H

C. Gilbreath, K-H

S. Gunderson, CDPHE

L. Kilpatrick, K-H

R. Leitner, K-H

J. Mead, K-H

S. Nesta, K-H

K. North, K-H

T. Rehder, USEPA

**Additional Distribution:**

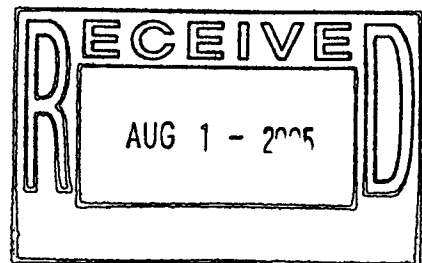

M. Swartz, K-H

G. Morgan, DOE

D. Kruchek, CDPHE

H. Ainscough, CDPHE

C. Spreng, CDPHE
